About this course

Providing you with knowledge and understanding of strategic management, as well as practical insight into contemporary issues in Health and Social Care organisations, this degree will enable you to take advantage of the many strategic leadership and entrepreneurial opportunities that the sector offers.

As the largest sector in the UK, health and social care plays a crucial role in supporting the economy by maintaining the physical and mental health of the population. The recent global pandemic has highlighted the importance of the management of health and social care delivery.

Our MBA Health and Social Care degree addresses the specific demands placed on professionals who are responsible for leading policy, strategy and services in their organisation; be it in the public, private or voluntary-aided sector. You will study the key management disciplines within a health and social care context, including business planning and finance, project and operations management, healthcare service improvement and leadership. Our lecturers have extensive experience teaching, training, and working in the health and social care management sector. You are assured that the content of your studies will be directly relevant to the constantly evolving world of contemporary health and social care management.

Completing my Master's degree with distinction from ARU London allowed me to access my graduate role and work in the higher education sector.

Nagla Abdalla
MBA Health and Social Care
